#### OCTBER HIGHLIGHTS

#### **NAVARATRI (DUSSEHRA)**

Goddess Durga is an embodiment of Shakti who overcame the evils of the world. Navratri is the story about nine wonders, wonders of powerful wonder women, and may this story showers the blessing in all nine forms. "Navratri" or "Navaratri", is synchrony of two words - "nava" (meaning nine) and "ratri" (meaning night). Clubbed together, it translates to nine nights. The festival of Navratri, which spreads over 9 nights and 10 days, is one of the most revered festivals in Hinduism and is celebrated during the autumn season. It lays importance on the worship of Goddess Durga or Shakti, which represents the energy of the universe, in her nine different forms. The nine days of Navratri are dedicated to worshipping the nine avatars of Goddess Durga, one on each day. Devotees also fast on all these nine days to please the Goddess and to seek her blessings. Some people fast on all nine days whereas some fast in jodas (couple), the first two or the last two days of Navratri.

### OYOUS FESTIVE FIESTA

#### "The greatness of a culture can be found in its festivals."

We intended to impart the quality education which should go hand in hand with the inventiveness and exploration. I am very much contented to witness the learners evolving and exploring with each passing day. Teaching methodology has allowed our learners to go beyond the textual boundaries and which is manifested in their understanding of subjects and also its applicability.

With the onset of October, festivities began with the festival of Navratri. The campus was agog with excitement when the students of grade-VIII-X resumed back to physical school. The campus witnessed sessions of academics and activities. Rigorous sessions of revision for grade-X students took place.

Students participated in rangoli, Diya decoration, toran making, thali decoration competitions and special assemblies were conducted by the students. Azadi ka Amrut Mahotsav was celebrated by the students of Grade- VIII-X.

Students have been groomed in such way to realize their goals and not to renounce them merely as a wish. Through rigorous revision and doubt clearing sessions, students gained confidence to give their best shot during Board Exam Term-I. They have been empowered to make them real. It's mesmerizing to see our learners endowing themselves to realize their dream with a proper plan and disposition guided by well-groomed teaching fraternity.

Vice-Principal Mrs. Shikha Srivastava

#### AZADI KAAMRUT MAHOTSAV

"When we stand, the Azad Hind Fauj has to be like a wall of granite; when we march, the Azad Hind Fauj has to be like a steamroller." Netaji Subhash Chandra Bose

Every year on 21 October, the anniversary of the formation of the Azad Hind Government is celebrated across the country. On this day, India's first independent provisional government named Azad Hind Government was announced. It was established in 1942 by Mohan Singh, Azad Hind Fauj, or the Indian National Army (INA) was revived by Subhas Chandra Bose on 21 October 1943. During World War II, the Indian National Army (INA) was an Indian military wing in Southeast Asia and active in Singapore. After its official formation in April 1942, it was disbanded in August 1945. INA was involved in several military operations fighting alongside the Japanese troops and against the British and Allied forces. They contributed to the battles fought in Burma, Imphal, and Kohima. To celebrate the 125th birth anniversary of Netaji Subhas Chandra Bose, a campaign called #Netaji125 has been launched as part of Azadi ka Amrit Mahotsav. The freedom fighter's birth anniversary will be celebrated with year-long activities. The day was celebrated with great fervour and in full patriotic essence in TJIS. A special assembly was formed on the occasion. Children gave speeches explaining the importance of the day and Netaji Subhash Chandra Bose. Students recited the song "Qadam Qadam badhaye ja ,Khushi ke geet gaaye ja" song in assembly. The program was conducted following all the necessary guidelines regarding COVID-19.

Grade I - X

#### AZADI KA AMRIT MAHOTSAV

Math Faculty of TJIS AURANGABAD, Mr. Pratik Laxman Edake showed his love towards the environment and planted saplings of Ashoka, Black Ficus, White Ficus and Madhumalti.

## **HALL MARK**

It's good to have a good teacher, but you always need a pretty good student.

The above line is absolutely true about Sayli Mandlecha, a brilliant and all-rounder student of TJIS, Aurangabad. With her achievement, she had brought laurels not only to her parents but her school also. She had been selected for Offline Audition of KBC. But the journey towards it was not easy. She registered for KBC through Byju's app and gave two online tests. And she received a call about her selection in KBC. In the next step, she was selected for an online audition. Again an online GK test was conducted there and she was asked a few questions about her personal life and she was shortlisted for an offline audition which was conducted in Mumbai. Here again, she gave a GK test of 20 questions. Now if she would be shortlisted again she would receive a message by 7th November. TJIS family wishes her Good Luck for her selection and for her future life.

#### **RE-OPENING OF THE SCHOOL**

#### Nothing is impossible in the world. The word impossible itself says I'm Possible....

Yes, we can't believe it...before a few months, it was really impossible just to think about reopening of the school, but it became Possible only because of the courage, determination and completely positive attitude towards the worst patch of everyone's life. And one fine day we received the message ...as all the things are going to be normal so we can reopen the school for Grade 8 to 10. In TJIS this day was celebrated as the Re-building of the school. The word is completely appropriate to the current situation. Before a few months also we tried to reopen the schools but due to the tremendous rise in cases, we had to stop offline education again. So it was necessary to develop confidence and faith in students and their parents about safe offline learning. In TJIS again there was an echo of the sound of the chirping of the students from 15th October 2021. There was a glimpse of curiosity, anxiety, happiness on everyone's faces. Good strength was observed on that day. Students were welcomed with beautiful rangoli at the entrance. The day was started with the regular school assembly. Respected Vice Principal ma'am, Mrs. Shikha Srivastava warmly welcomed and guided the students. All the teachers also welcomed and gave best wishes to the students. The whole day was passed in the excitement of the students and teachers.

#### MID TERM FTP

Anyone who stops learning is old — whether this happens at twenty or at eighty. Anyone who keeps on learning not only remains young but becomes constantly more valuable — regardless of physical capacity. Henry Ford

Faculty Training Program strengthens the professional development of the faculty members and who deal directly with students. It helps the educators to increase the effectiveness of their teaching. So that they are better able to guide students. Research shows that effective teachers are the most important factor contributing to student achievement. JGI school organized MID TERM FTP sessions for the teachers from 7Th to 9th October 2021. Innovative and important programs were organized during the session. The session started with Respected Dr.Mona ma'am's motivational words.

The next session was conducted by our Respected President Academic Council Dr.Chandrashekhar DP guided us about rebuilding the school and not just reopening. In his session, he threw light on a few important topics like the physical and psychological tendency of the students at the time of re-opening the school. The next session was conducted by Ms. Deepali Gunjkar on the topic of artificial intelligence. It was well explained with the examples of stone, paper, and scissor activity. The first day ended with Sirisha ma'am's session on the Usage of Tenses in everyday life. It was really informative and exciting session.

The second day started with our honorable Dr. K Lakshmi Rao ma'am's session on the topic of learning outcomes through new pedagogies and technology. She explained how to create it and how to achieve it. She guided us about how to set a rule to achieve the goal. She gave mythological references from Mahabharata to explain it.

The next session was conducted by Mr. Ashish on the topic of Integration Of Science with other subjects. He gave an interesting example of salt as a sodium chloride which was really amazing. Next, it was Ms. Tarannum mam's session on the topic of Education beyond the Curriculum. Here she explained the need to bring about the change in today's education system.

The third day started with Dr. Senthil Kumaran sir's session on the topic of Decoding MCQ's. His session was an eye-opener for all the educators. He emphasized on creativity and hard work of the educators instead of just only ctrl c and ctrl v while setting the MCQ-based questions for the students. The session was continued by Mr. Suryakumaran sir's session. He focused on various ideas for how to frame the questions and how to implement sibling items.

The next session was conducted by Ms. Geeta Krishnan for English subject, Mr. Harmit Singh for Sst, Ms. Shrividya Balachandran for science, Mr. R Subramanian for Biology, and Mr. Suryakumar for mathematics.

These three days were really brainstorming for all the educators where they learned many important things which they can implement in their teaching.

## **PARENTING TIPS**

#### PARENTING TIPS FOR DIWALI

#### 01 Tips to ensure a happy Diwali!

Diwali is the festival of light and togetherness. It is the celebration of victory of good over evil and an exciting time for kids as well as elders. Light, new clothes, mithai and crackers, all of this make the festival super special and worth the wait. But all this is true only if you stay safe. In the past few years, a lot of people have lost their eyesight and have got serious burns due to carelessness. Unattended children burning fireworks have been the major cause of accidents caused during Diwali. This is something you must avoid during the festivals.

#### 02 Follow these safety tips

But safety doesn't just mean being careful around diyas and firecrackers. It includes many other factors like ensuring the comfort of your elders, pets, shielding children from burns, keeping the streets litter free and the environment less polluted. Here is the list of top 10 safety tips that are absolutely essential for you and your family this Diwali.

#### 03 Lamp/diyas

Diwali is quite literally the festival of light where homes are lit with diyas and candles. But if not taken care of, diyas can lead to fires.

What you can do:

- Keep the candles and diyas away from curtains and other inflammable objects.
- Do not light divas near electrical wires.
- Put the candles/diyas on a flat surface so they do not fall.
- Keep your pets and babies away from diyas.
- Do not keep the diyas on the doorways so that no one falls and hurt themselves.

#### 04 Firecrackers

Despite the government ban, firecrackers are still a big part of Diwali celebration. Especially when you have children and teens in the family.

What you can do:

- First and foremost, avoid bursting firecrackers, if possible at all.
- Do not burst crackers that emit a lot of noise and smoke.
- If you plan to buy, buy firecrackers from trusted brands and stores to make sure they are of good quality.
- Explain your children to burn crackers under elder supervision.
- Lit the crackers in an open space and burst only one cracker at a time.
- Keep a water bucket handy that can be used in case of an accident.
- Do not stand to close to where crackers are being burst.

Waste disposal Make sure to dispose off the burnt crackers safely. Half burnt crackers can cause hazard. So, stack up the used sparklers, chakaris and phuljaris in a bucket of water before throwing them away.

## **PARENTING TIPS**

#### PARENTING TIPS FOR DIWALI

#### 05 Noise and smoke pollution

Even if you don't choose to burn noisy crackers, your neighbours might do it. Loud noise can be unbearable for elderly, babies and pets. Babies often start crying and pets get uncomfortable due to the noise of crackers.

What you can do:

- Limit the use of crackers as much as you can.
- If you are allergic to smoke, do not go outdoors.
- Keep babies and pets inside the home with door and windows closed to minimise the sound of crackers.

#### **06 Clothing**

An important ritual of Diwali celebration is wearing new clothes. But dressing up comfortably is very important for you as well as your family.

What you can do:

- Avoid wearing synthetic clothes as they can catch fire easily.
- Wear cotton clothes that are not very loose or flowy.
- Dress your kids in comfortable clothes and also tie their hair to avoid mishaps.

#### 07 Food safety

No Diwali is complete without the lip-smacking delicacies prepared for the celebration of the festival. But due to the high demand, the quality of food is compromised.

What you can do:

- Buy food and sweets from reputed stores and shops that ensure you about the quality.
- Ensure you and your kids wash hands before eating food.
- -Avoid having street food and keep the food covered.
- Try to make sweets at home as there is nothing more tasty and hygienic than that.

Keep handy with you

- A bucket of water
