**Patience is bitter, but its fruit is sweet.
-Jean-Jacques Rousseau**

Patience is considered to be highly crucial for every individual in the world. Besides, it is also stated that the people who can wait long achieve better things than those with no patience since it is impossible to acquire success in a single day. Patience is a virtue. But it's true! Patience can help us achieve our goals, maintain a more positive outlook on life, and make us less reactive, which in turn will make us less prone to bad decisions. Stress, regret, and anger don't help anything. So when you're facing an uncertain future, a negative event, or something scary, take a minute. Don't do anything. Just sit a spell. And if you find your brain veering in a negative direction, get yourself back in the right frame of mind to make better decisions by just giving time. In order to inculcate the value and significance of patience a week's assembly was conducted. We also find spending time in nature can help us to make more measured responses and get in a more positive headspace. We also find spending time in nature can help us to make more measured responses and get in a more positive headspace.

Grade XA/B students conducted the morning assembly from Aug 1st-4th on the topic “Patience is the best medicine”. Students came up with good thoughts, recited wonderful poems, and presented motivating articles in the assembly. They gave the tips to inculcate the values of patience.

Assembly Presentation by Grade VIII A Topic:-World Biofuel Day

“A man must never forget that fossil fuels are very precious and biofuels are the wisest choice”

Every year, August 10 is marked as World Biofuel day. The day is observed to raise awareness about the alternatives of conventional fossil fuels and the government of India’s endeavours to enhance the biofuel sector. The development of the biofuel sector is working hand in hand with schemes like Swachh Bharat Abhiyan and Atmanirbhar Bharat Abhiyan. In August 2015, World Biofuel Day was observed for the first time by the Ministry of Petroleum and Gas. Students of grade VIII A, conducted special assembly to celebrate World Biofuel Day on 10th August. “Lead from the back and let others believe they are in the front.”

Incorporating a sense of democratic syndicate into educational systems from an early age is a wonderful initiative. Assembly Presentation by Grade X Topic:- International Youth Day

“You have to grow from the inside out. None can teach you, none can make you spiritual. There is no other teacher but your own soul.” - Swami Vivekananda

International Youth Day is celebrated every year on August 12 to raise awareness about cultural and legal issues related to the youth. The day was marked by the United Nations, and it was first observed on August 12, 2000. Governments and related authorities mark it as an opportunity to work on issues related to youth via cultural events, workshops, concerts, and meetings involving local and national government executives. Interestingly, it is also labeled as the celebration of the potential of youth as global partners. This day is celebrated every year to fight the discreetly prevalent problem of ageism by educating the world's population about the obstacles and hurdles that are faced by the youth of today. On the 12th of August, 2022 the students of Grade X of JHCS-KP conducted a special assembly on the occasion of 'International Youth Day'. The assembly began with the students praying to the almighty for a fruitful day ahead. The fervent prayer was followed by the school song, showing the intense school spirit felt by every student in the school. Later followed the pledge, through which we showed admiration and loyalty towards our nation. Right after, we listened to an illuminating thought about the youth which gave us all something to think about. Students also heard a concise new word which enlightened their minds and widened the scopes of their internal dictionary. Further, few students of grade X narrated a story from the life of Swami Vivekananda about his learnings as a member of the youth of the past. The story elucidated everyone in the audience and helped them form new views upon the issues faced by the youth. We were then presented with the news headlines to keep us updated on the current affairs. The assembly was then culminated by singing the national anthem. All in all, the assembly was done well and truly helped motivate the students and the teachers through the teachings of Swami Vivekananda - a wise man who was very vocal about his opinions and helped inspire millions to go on with their lives just as he did the students of JHCS-KP even without his presence.

Topic: Fancy Dress Competition – (Janmashtami Special)

Dress shabbily and they remember the dress; dress impeccably and they remember you.

A fancy-dress competition not only blends learning with fun but also develops confidence in students by giving them an opportunity to get on the stage and speak in front of the audience. It is more than just physically wearing a costume. When “in character”, they learn to imitate the mannerisms of the character they’re dressed up as, which encourages children to practice different emotions and use their communication skills.

On the occasion of Janmashtami, a fancy dress competition was organized on 18th of August 2022, for classes I & II, as a part of C.C.A. The children dressed up as Lord Krishna & Radha or the Gopika. The little ones looked very beautiful in their mythological attires which drew everyone’s attention. The sight of so many Radhas, Krishnas, and their consorts only multiplied the joy and exuberance of this auspicious festive activity. With their marvellous performance, they lighted up the show and mesmerized the teachers and the students. It was a delightful competition that brought an amiable ambiance and the judges retorted with their applause.

It was indeed a tough competition and the judges had a tougher time choosing the best participant.

Assembly Presentation By Grade IX Topic: Women's Equality Day

“Both men and women should feel free to be sensitive. Both men and women should feel free to be strong...it is time that we all perceive gender on a spectrum not as two opposing sets of ideas.”

— Emma Watson

Gender equality is, first and foremost, a human right. A woman is entitled to live in dignity and in freedom with will and without fear. Empowering women is also an indispensable tool for advancing development. With this belief, the students of grade IX conducted a special assembly on ‘National women equality day’ on the morning of 26th August 2022. The assembly began with praying to the almighty, the creator of the universe and singing the eminent school song. It was then followed by the pledge, an uplifting thought and an inspiring word of the day. There was a thoughtful activity conveying an influential and significant message. Feminists are spectated to be individuals who believe in female domination, and that is not precise. Feminists believe that women and men should be treated equal to each other, neither sex defines who they are or makes them superior to the other. Equality stands for being equal in all aspects especially in status, rights and opportunities. The assembly ended with this very message and the imperative thought of a restriction-free equality in the society. The assembly proved informative and an essential educational experience for the students.

Assembly Presentation By Grade X Topic: National Sports Day

The only one who can tell you “you can’t win” is you and you don’t have to listen.

-Jessica Ennis-Hill

Winners never quit and quitters never win. Sports do not build character. They reveal it. National Sports Day is celebrated every year on 29 August. This is the birth anniversary of Hockey wizard, Major Dhyan Chand. The idiom “All work and no play make Jack a dull boy” holds even for young learners. Playing sports, whether team-based or individual, is essential for children as they provide not just physical activity, but also help build children’s self-esteem, confidence, and social skills and motivate them to excel in life. Playing sports helps children learn to control their emotions and channel negative feelings in a positive way. To mark the significance of and importance of sports students of grade X conducted a special assembly on the topic “National Sports Day” on 29.08.2022. The assembly began by invoking the blessings of the almighty, followed by our prestigious school song. Pledge was taken with pride which has brought a patriotic fervor among students. A sturdy word shared and a thought-provoking thought shared in the assembly triggered the importance of playing sports. In the special assembly, the students also dressed up as famous sports personalities. They shared information about a particular sportsman which indeed helped all the students to gain information and knowledge on National Sports day. There was also an excellent quiz conducted by Harsha Kamal of grade X wherein all the students participated enthusiastically and joyfully. The main idea of the assembly is to encourage children to have fun, get active, and work together in various fun physical activities and challenges. And this was done beautifully by all the students!

Assembly Presentation By Grade III, IV & VI Topic: Ganesh Chaturthi

Ganesh Chaturthi is a Hindu festival that is celebrated every year in almost all parts of India. It is celebrated in the month of August-September every year. In Hindu mythology, Lord Ganesh “Pratham Puja”, is worshipped first among all. Lord Ganesh also considered “Vigna Harta”, is one who removes all the obstacles. Before starting any big, important, and religious work, people first remember Lord Ganesh. To get rid of all troubles and obstacles, people worship and remember Lord Ganesh. View The Review

One More Step is a book written by Chandrasekhar DP, the CEO of the JGI group of schools, about an expedition by the school students to the Everest Base Camp. It portrays the challenges faced by the students to reach the Base Camp located 5,000 meters above the ground. There are many tests of willpower and fortitude of the team in this book, such as the incident where the group was almost forced to abort due to the worsening weather conditions. However, after facing all the hurdles, the feeling of ecstasy when one achieves their goals is exhilarating; a privilege only to the fittest. I, personally, would rate this book a 8/10. The story of the book is fabulous as is the ending, which gives you a feeling of relief and fulfillment.

The pacing of the book is a little disorienting, sometimes fast and sometimes on the contrary. The poetic devices used in the book are repetitive; some could be cut and would still make sense. Other than these few remarks, the book is a fun read and gives the moral to never give up no matter how hard it is, because the result is always worth it. Reviewed

Alumni Speaks

I first joined Jain Heritage School Kondapur in eighth class. School was one of the most memorable times and not just me but all of my classmates would like to go back to school life if we can because it is that much fun. In school, we had no worries and enjoyed every day. Our friends and teachers made our school experience memorable and happening. I and my friends till now still reminisce about how much fun it all used to be back then.

In Jain Heritage, we had a lot of fun. During annual day season, our days go by practising for annual day and I loved painting the backgrounds and costumes so our teachers encouraged us and gave us the work we like. Our teachers in school notice our talents and interests and always encourage us to do what we love.

I also enjoyed sports a lot. We used to play basketball, throwball, athletics, etc. We used to have sports competitions and annual sports day. I've also played some sports in college but not as much as I did in school.

So overall school life is really fun and I miss it a lot. It is a time that none of us can forget.
