29-09-2023	Assembly Presentation by Grade IX Topic: Mental Health Awareness
30-09-2023	Assembly Presentation by Grade V A Topic: World Heart Day

History doesn't change the past, but likely it changes the future. History is one of the oldest subjects of study. By history we understand the breadth, comprehensiveness, variety and extent of learning experiences provided by the study of a particular subject. The growth of history has accompanied with the growth of human race. Thus, history and man are inter-related. History at present is no more confined to the study of political activities of man but it also includes a study of his achievements in the physical, social, economic, religious, philosophical, literary, artistic, cultural, industrial, technological and scientific fields, starting from ancient times up to the modern age. To mark the significance and importance of our

history, the students of Grade VII-B & VIII-B have conducted the morning assembly on the topic "Explore History" on 1st September & 4th September respectively. They conducted the assembly with utmost zeal and enthusiasm. The assembly started off with the prayer followed by the school song. Students took pledge with pride to be responsible citizens. The students emphasised on the importance of "Exploring History" through meaningful words, inspirational thoughts and informative article. The students understood that the scope of history is very wide and varied, in fact as wide as the world and as long as the existence of man on earth. It was an informative assembly that was conducted with an objective of educating students about the importance of History.

"A generation which ignores history has no past and no future."

Ms Swarna

Assembly Presentation by Grade III B Topic: World Coconut Day

World Coconut Day is celebrated every year on September 2 to promote the importance of coconuts and their usefulness in various aspects of life, including economy, agriculture, and health. The day also aims to raise awareness about the benefits of coconut cultivation and consumption. The coconut fruit provides nutritious coconut water, its pulp is delicious, and the oil derived from it is used in cooking, beauty products, and other items. Coconut husks, shells and leaves too are used for handicrafts and for making various other items of daily use.

On 2nd September 2023, students of grade III B presented a special assembly on "World Coconut Day". The special assembly started with Prayer followed by the school song. The pledge to be responsible citizens of India was administered by Rumaysa. Word of the day was expertly presented by Aara Krishna. Siva Priya shared an interesting thought of the day which was about drawing an analogy between life and a coconut-tough on the outside but once you strive to get past it you can enjoy the sweet fruit of success. Virat explained the health benefits of coconut through an article. Overall, the assembly went well and the students understood the importance and health benefits of coconut.

Janmashtami Celebration

Sweeter than honey, tastier than curd, pleasanter indeed than any happiness is the company and the power of the name of Krishna. Janmashtami is celebrated as the birthday of Lord Krishna, one of the most powerful and famous reincarnations of Lord Vishnu. According to the Hindu calendar, this festival is celebrated on the ashtami of Krishna paksh, or the 8th day of the dark fortnight in the month of Bhadon. This day indicated the beginning of hope in the old times; hope that the malicious rule of Kansa would soon end.

Janmashtami was celebrated at Jain Heritage a Cambridge School on September 6th, 2023 with fervour and joy. To celebrate the extraordinary bond between children and the Almighty, The School took the opportunity to both jubilate and learn with the young minds. The students of Grade-II B and Grade IV dressed up as Lord Krishna and Radha. While the little Krishnas were decked up with flutes, peacock feathers and crowns on their heads, adorable little Radhas sported colourful outfits with all their finery and matka in place. The children put up a beautiful show as they danced to a medley of Janmashtami songs. The school premises was decorated beautifully and the spirit of festivity was enhanced with Jhankis depicting the life history of Lord Krishna. While its religious importance is not lost, this day signifies a lot more to modern India. It signifies excitement, hope, a sense of togetherness, euphoria and a joyous spirit as communities come together. The celebration that followed was truly entertaining and educational for all.

Ms Roja
CCA Coordinator

Teachers Day Celebration

Teaching is the profession that teaches all the other professions.

Teacher's Day is a special occasion dedicated to honouring and expressing gratitude to educators for their invaluable contribution to society. It is a day to recognise the hard work, dedication, and passion that teachers bring to their classrooms

daily. To greet our teacher and to respect their contribution to the society, we celebrate

“Teachers’ Day”

every year. To mark this day, the students of Grade X conducted a special assembly. The assembly began with a prayer and the rendition of our school anthem. Following this, we participated in

the traditional pledge, which was followed by an

insightful thought and a light-hearted, humorous word of the day. Subsequently, a humorous school news segment unfolded, highlighting amusing anecdotes from our school, and bringing laughter to the audience. Our beloved Principal, Dr. Mona Mehdi delivered a beautiful speech to all the students.

Over the course of the day, the students of Grade IX and X took up the initiative of helping out ever-so hardworking teachers

by taking their places for a day. Not only that, the students prepared musical games, songs, and dances to entertain the teachers on this special day. All in all, it was a celebration for everyone!

Empowering Educators: Generation Global India's Teachers Workshop

In the spirit of lifelong learning and fostering global citizenship, our school had the privilege of hosting an enriching workshop by Generation Global India on 6-9-2023. This transformative event brought together educators from various disciplines to explore the power of dialogue, empathy, and global perspectives in education.

The workshop began with a warm welcome. Throughout the Workshop, we delved into essential themes. We learned to embrace and

appreciate the rich diversity within our classrooms, understanding that cultural differences are an asset to our learning environments. Techniques for promoting respectful and open dialogue were at the heart of our discussions. We explored ways to bring global issues into our curriculum, enabling students to develop a deeper understanding of the world's complexities. Beyond classroom strategies, the workshop encouraged educators to collaborate and build networks for future cross-cultural exchanges among students.

One of the workshop's highlights was the opportunity to engage in hands-on activities, as it processes, young people gain confidence, global exposure, and develop dialogue skills such as critical thinking, questioning, and reflection. The workshop inspired attendees, leaving us with renewed enthusiasm for our roles as educators.

Our journey towards global citizenship education has just begun. We are excited to implement the strategies and insights gained from this workshop into our classrooms, paving the way for a more interconnected and understanding world, one student at a time.

Ms Mary Sumalatha
Social Science Department (HOD)

Assembly Presentation by Grade VI B Topic: International Literacy Day

“You educate a man; you educate a man. You educate a woman; you educate a generation.” - Brigham Young

International Literacy Day takes place on September 8 every year to raise awareness and concern for literacy problems that exist within our own local communities as well as globally. International Literacy Day was founded by proclamation of The United Nations Educational, Scientific and Cultural Organization, or UNESCO, in 1966 “to remind the public of the importance of literacy as a matter of dignity and human rights.”

What exactly is literacy? Literacy is defined as “the quality or state of being literate: educated...able to read and write.” Because you are able to read this article and no doubt spend a lot of time reading, it may seem incredulous to learn there are people living and working in your own community who not only cannot read this article, but are unable to read a book, a restaurant menu, a road sign, a voting ballot, an instruction manual, a prescription bottle label, or a cereal box. Wiping out illiteracy in every local community around the world is what International Literacy Day is all about. Governments, schools, and communities around the world participate in activities designed

to focus on effective ways to end illiteracy at the local level. To infuse the importance of literacy as an integral part of education and lifelong learning, a special assembly on ‘International Literacy Day’ was presented by Grade VI-B students of JHCS- Kondapur. The day started enthusiastically with prayer followed by School song. Amrutha was the anchor of the day and did a splendid job. Enriching thought was spoken by Medha. To enhance vocabulary, word for the day, was shared by Meeha. An informative article on importance of World Literacy Day was presented by Sargam. The assembly was then concluded by National Anthem sung by all. The assembly was informative and was carried out flawlessly.

Ms Sweta Reddy - English Department

CCA - Elocution Competition for Grade VI and VII

Speech is power: speech is to persuade, to convert, to compel. Elocution is the art of speech and art of conveying message to the people. It is the one which allows you to share your views on certain topics to the group of people. Elocution competitions are important because it allows you to gather knowledge, the proper usage of words and the strategy to bring the changes in the mind of people. Elocution Competition on the topic - “Introvert Vs. Extrovert” was conducted for grades VI, and VII on 8th September, 2023. The students participated with great enthusiasm. It an attempt to promote English speaking skills, in terms of pronunciation, delivery, and voice modulation, and to develop English in its spoken form. This year too, several children gave in their names as participants. All the participants performed exceptionally well, winning accolades for their house. The competition gave a lot of encouragement and confidence to the performers and to all the students present there. The students spoke about each of the topic. Their hard work was appreciated by one and all. The young and gifted orators had won the hearts of the judges, who were overwhelmed by their oratory skills and preparation. The confidence, expression and talent of the young ones made the event truly memorable.

Ms Amrutha
Grade VI B

Parent Teacher Meeting -II

Every Parent deserves a precise, concrete and rational feedback from their child's educator to ensure the best academic and non academic performance of them. The second Parent Teacher Meet for the year 2023-24, is conducted on 9th September. This brought both the stake holders on the platform to discuss and encourage students to work on themselves, improve their academic performance and widen their skills. Teachers set up the expectation that parental involvement is welcome and necessary which makes the parents aware about the developing graph of the child. This PTM also made the students sense that

teachers and parents are observing them closely and rooting for their best performance, academically and in extracurricular pursuits and lead a head for forthcoming challenges, opportunities and plan of action.

Ms Kavitha - Senior Incharge

Assembly Presentation by Grade I & IV Topic: Keep trying until you succeed

"Arise awake and stop not till the Goal is achieved."- Swami Vivekananda
There are no shortcuts to success. None of man's creations has been made at the first attempt. Inventors, explorers, artists, writers and scientists did not become great through their first attempts in their respective fields. Even today, man is trying to learn more about nature, space and the universe. Persistence is the key. At Jain Heritage a Cambridge School, Kondapur, students of grades I and IV conducted special assemblies from September 11th to 13th on the topic: Keep trying until you succeed. The idea was to help children understand the importance of persistence and

enable them to embrace failures as learning opportunities, not as reasons to quit. Following tradition, each of these assemblies started enthusiastically with a prayer followed by the school song. Naira and Nithya were the anchors from grade I whereas Varun and Mathew were the anchors from grade IV. A pledge is a gentle reminder that helps us to recollect and fulfill our fundamental duties and responsibilities. Pledge was administered by Khushi and Reyansh Gautham from grade I and Parinithi from grade IV. On each day, an enlightening thought was shared by the children which focussed on the importance of persistence. Saarvi and Reyansh Kumar Panda from grade I and Faizaan from grade IV shared the thoughts of the day on respective days. In order to improve vocabulary, Jacinth and Stuthi from grade I and Achyuta from grade IV presented the word. Riya of grade I recited a beautiful poem. Anushree from grade IV recited an inspirational poem which reiterated "koshish karne walon ki kabhi haar nehi hoti"- those who keep trying can never fail in the long run. Swara from grade IV shared news updates to keep us abreast with current affairs. As the saying goes "Failures are the pillars of success". It is important for children to learn to accept failures. The assembly presentations went a long way in inspiring children to strive hard for success. They learnt that consistent efforts and determination are required as there are no shortcuts to achieve great things in life.

Ms Garima - Mother Teacher

Assembly Presentation by Grade VI -IX

Topic: Hindi Diwas

हिंदी हमारी आन, बान, शान है
हिंदी, भारत की राष्ट्रीय भाषा है और हमारे देश की विविधता का प्रतीक है। यह भाषा हमारे समृद्ध सांस्कृतिक धरोहर का भी प्रतीक है। एक भाषा के रूप में हिंदी न सिर्फ भारत की पहचान है बल्कि यह हमारे जीवन मूल्यों, संस्कृति एवं संस्कारों की सच्ची संवाहक, संप्रेषक और परिचायक भी है। बहुत सरल, सहज और सुगम भाषा होने के साथ हिंदी विश्व की संभवतः सबसे वैज्ञानिक भाषा है जिसे दुनिया भर में समझने, बोलने और चाहने वाले लोग बहुत बड़ी संख्या में मौजूद हैं। हिंदी भाषा का इतना महत्व होने का कारण है कि यह भारत की आधिकारिक भाषा है और यहाँ के लोगों की भाषा है। हिंदी ने दुनिया भर में अपनी विशेष पहचान बनाई है और विश्व में करीब 500 मिलियन लोग हिंदी में बात करते हैं।

जैन हेरिटेज ए कैंब्रिज स्कूल में 14 सितंबर हिंदी दिवस के अवसर पर

विशेष प्रार्थना सभा और कई कार्यक्रमों का आयोजन किया गया। हिंदी भाषा पर छात्रों ने अपने विचार व्यक्त किए। नाटक, नृत्य, गायन, दोहे छात्रों ने प्रस्तुत किया। सभी छात्रों ने इस प्रार्थना सभा में बढ़ चढ़कर भाग लिया। अंतरा ने सभा का संचालन किया पार्थ ने सभी को प्रतिज्ञा दिलाई, आद्विक ने दिन का सुविचार सभी के साथ साझा किया, कक्षा 4 और 5 के छात्रों ने मिलकर हिंदी भाषा की महिमा बताते हुए बहुत ही सुंदर गीत प्रस्तुत किया। कक्षा 9 के छात्रों ने दोहों को अर्थ सहित सुनाकर सभी को नैतिकता का पाठ समझाया। कक्षा 5,6 और 7 के छात्रों ने हिंदी के महत्व को समझाते हुए एक नाटक की प्रस्तुति की। विद्यालय की उपसंचालक महोदया और सभी शिक्षक-शिक्षिकाओं ने बच्चों के द्वारा किए गए कार्य की सराहना की। हिंदी दिवस के अवसर पर छात्रों को इस दिन का महत्व समझाते हुए सभी से दिनभर हिंदी में वार्तालाप करने की प्रार्थना की गई। अंत में राष्ट्रगान गाकर प्रार्थना सभा का समापन किया गया।

हिन्दी एक बेहतर भाषा है, यह उत्कृष्ट भाषा जितनी बढ़ेगी, देश उतना ही अधिक उन्नति की राह पर अग्रसर होगा।”

Primary Incharge

CCA - Ganesh Idol Making Competition for Grade I to X

Bring home an EcoGanesha to keep your MOTHERLAND POLLUTION –FREE.

Ganesh Chaturthi, also known as Vinayaka Chaturthi is one of India's favourite festivals. During this festival the birth of Lord Ganesh, the elephant-headed God is celebrated. One of the main traditions followed in many Indian households is bringing a beautiful Ganesha idol home during this festival. It has become a norm to buy shiny and colorful Ganesh idols from the market, which use

Plaster of Paris (PoP) and are painted with bright chemical and synthetic dyes. PoP is non-biodegradable and contains gypsum with other heavy metals like arsenic, lead and mercury. When these idols are immersed in rivers, seas and lakes, they decrease the oxygen content, killing the fish and other creatures. The lead in the paint used is also harmful for both humans and animals.

We, as a society, have to become increasingly conscious about our duties towards the environment, many responsible citizens are opting for eco-friendly Ganesh idols, mostly made of clay. The best way to honor nature and celebrate the festival responsibly is to make Ganesh idols at home with eco-friendly materials and one can be innovative while doing this. Students of JHCS- Kondapur from Grade I –X participated in a DIY Ganesh Idol Making Competition with eco-friendly materials on 14th and 15th September, 2023. Students unleashed their creative talents to make beautiful idols of Lord Ganesh whom many of them consider as their best friend.

They went out of the box to create their own unique Ganesha Idol in a fun and creative way using materials such as play dough, modeling clay, paper cups, clay pots, coconut shells, fresh leaves and flowers among other things. The enthusiasm was palpable as students put their heart and soul into their creations. It was indeed quite a task for the judges to choose the winners. The competition gave an opportunity to the students to be a part of festive gaiety and traditions while also sensitizing them about the need for making sustainable choices for the betterment of health and environment .

Assembly Presentation by Grade VII A

Topic: Engineers Day

“The way to build a nation is to build a good citizen. The citizens should be efficient, of good character and possess a reasonable high sense duty”.

- Mokshagundam Visvesvaraya.

National Engineers' Day in India is celebrated every year on September 15 to commemorate the birth anniversary of Sir Mokshagundam Visvesvaraya, a renowned Indian engineer and statesman. In the field of engineering, Sir Visvesvaraya was a pioneer who significantly influenced the growth of India's infrastructure. The day is also known as Visvesvaraya Jayanti. In order to pay tribute to Sir Mokshagundam Visvesvaraya, the students of grade 7A conducted a special assembly on the topic “ENGINEER’S DAY”. The assembly started with the great anchoring by Maanvi. The students enthusiastically started the assembly with the prayer followed by the school song. The pledge to respect the engineer was energetically taken by Karthikeya. The thought which was rightly given by Aadit was “Science is discovering essential truths about what exist in the Universe, Engineering is about creating things that never existed”. The word of the day was given by Akshara. The importance and the life of Sir Mokshagundam Visvesvaraya was given by Veekshita. Fun and exciting quiz conducted by Lakshita. A speech which engaged

the student to research on Sir was given by Mrs.Kavitha ma’am, the senior coordinator of the school. To end the interesting morning assembly of the day, everyone sang the national anthem thinking of upholding our country’s pride.

Master Vallabha - Grade VII A

Ganesh Chaturthi Celebration

Students of Jain Heritage A Cambridge School celebrated ‘Ganesh Chaturthi’ with great pomp and festivity. Ganesh Chaturthi is celebrated as the birthday of Lord Ganesha, the son of Lord Shiva and Parvati. The festival is also known as Vinayaka Chaturthi or Ganeshotsav. Ganesh Chaturthi is celebrated for a duration of 11 days. It begins on the Chaturthi when people install the statue of Lord Ganesha in their homes and temples. This festival ends on Anant Chaturdashi with Ganesh Visarjan. The devotees of the Lord Ganesha offer their prayers to God. Lord Ganesh "Pratham Puja", is worshipped first among all Lord Ganesh, also considered "Vigna Harta", is one who removes all the obstacles. Before starting any big, important, and religious work, people first remember Lord Ganesh. To get rid of all troubles and obstacles, people worship and remember Lord Ganesh. During Ganesh Chaturthi, people bring the Ganapati idol to their homes and worship it with complete devotion. Various trusts and societies also set up big 'pandals' for worshipping Lord Ganesh in the city. The vibrant Indian festival of 'Ganesh Chaturthi', was celebrated enthusiastically and joyfully by the students. The assembly began by invoking the blessings of the Almighty followed by the school song. Superb anchoring was done by Hamsika. Pledge was administered by Paarth. Keerthana shared an illuminating thought related to the festival. Word of the day was spoken by Rishinandan. A beautiful article about Lord Ganesha in Telugu was delivered by Ananya and in English by Varun. A melodious devotional song "Jai Ganesh" was sung by the students of Grade III and IV which mesmerized the gathering. The atmosphere echoed with the hymns and was charged with festivity. Students of Grade III presented a fabulous dance to the song-" Jai Ganesh Deva". The audience was enthralled by the captivating performances by the students.

Telugu Department**

Cultivating Art's District Level Competition

"Life is an art of drawing without an eraser."

A drawing competition is an exciting event where artists showcase their creativity and talent. It is an opportunity for participants to express their artistic instincts and attention to detail in turning their imagination into a masterpiece.

Cultivating Art is an organization that seeks to direct young people towards natural arts such as drawing, painting, colouring, sculpturing, and so on... and also share their work with the rest of the world.

Jain Heritage A Cambridge School, Kondapur conducted the School level competition of Cultivating Art's 4th Telangana State Level Drawing Competition. The selected students were qualified for the District Level Competition. On September 16th, the students went to Vista International School to attend the competition. The topic to paint was 'Meditation'. On the way we shared our references with each other. We also cheered one another. We had 1 hour to paint. We had a lot of fun painting. I used the combination of various shades of yellow and blue to show that there is a peaceful environment around the person who is meditating. Yellow is for happiness, hope and spontaneity. Blue often symbolizes serenity, stability, inspiration, or wisdom. It can be a calming colour, and represent reliability.

Keeping the significance of the colours in mind we tried our best to use all we explored about meditation and depict it in our painting. Santoshi ma'am, our art teacher always encouraged us to give our best.

In conclusion, the drawing competition was an incredible experience for all the participants involved as our creative flair was put to test. It showcased the immense talent and creativity of aspiring artists who put in their heart and soul to deliver unique and captivating masterpieces. Through this competition, individuals were able to learn from each other, share their passion, and grow as artists. It was truly an inspiring event that has encouraged many artists to continue pushing their limits and exploring their capabilities.

So let's set our minds free for a creative life!

Ms Rohitha Kandagatla

VIII – B

Assembly Presentation by Grade VIII A Topic: World Ozone Day

"One small act today can save the ozone for generations to come."

The United Nations General Assembly declared September 16th as World Ozone Day. On this day in 1987, the United Nations and 45 other countries signed the Montreal Protocol to restrict man-made chemicals that lead to ozone depletion. Ozone is made up of 3 atoms of oxygen and is present in the stratosphere. It protects us from Ultra Violet Rays of the Sun that can otherwise prove fatal for living organisms. These rays can cause serious injuries like cancer, if ozone gets weak. However, several holes have been found by scientists in it, which is not a good sign. This is due to environmental degradation and the rise in temperature. Hence, every year, this day is celebrated as the International Day for the Preservation of the Ozone layer as the purpose to protect the Ozone layer by reducing the production of substances that are supposed to be responsible for its depletion. To mark the significance and importance of 'Ozone Layer' the students of grade VIII A, conducted the assembly on 19.09.2023. The day started enthusiastically with prayer followed by school song. Pledge was administered by Geethika, followed by an enriching thought by Vyshnavi and to enhance the vocabulary, word was presented by Khushi. An article was read by Tonmoy and news by Dhruv. Anchoring was done by Jessica and Unnathi. The topic made the students understand the importance of ozone layer and what could be the consequences if we fail to protect it. At last, the assembly was concluded by singing National Anthem.

Ms Vanisha

VIII A

Assembly Presentation by Grade II A and IV A

Topic: Get Friendly with Science

Science “happens” all around us every day, and we have endless opportunities to experience the wonders of science. The students of Grade 2A and 4A at JHCS Kondapur conducted morning assembly on the topic “Get Friendly with Science” on September 20th and 22nd respectively, to reinforce this idea.

While Yuvan from Grade 2A did the anchoring wonderfully, for grade 2A, Vivaan S. and Siddharth Kilari did the anchoring expertly for Grade 4A. Like always, the assembly began on a positive note with prayer followed by the school song. Ruthvik and Samarth Reddy renewed the pledge to become responsible citizens of our country. Mahi Varnika shared the thought of the day on 20th September which focused on the power of science to take us from confusion to understanding and G Shraavan Koushik shared the thought of the day on the 22nd to show the unbreakable bond between curiosity and science: If knowledge is power then curiosity is the muscle.

Children got a chance to add interesting new words to their vocabulary when Sri Hamsini explained the meaning of the word ‘experiment’ and Kushi explained the

meaning of the word ‘eureka’-a cry of joy on discovering something unexpectedly. Ayaan Eape n shared a beautiful article about how children are little scientists in their own right. Mythili delighted everyone by narrating the famous story of the Greek mathematician Archimedes and how he made an unexpected discovery while taking a bath one day in his bathtub! As the story goes, Archimedes had a sudden flash of inspiration. The amount of water displaced by an object when it is submerged, must have exactly the same volume as the object itself. Vachan shared another anecdote about how Sir Isaac Newton came up with the theory of gravity after he watched an apple fall from a tree. It made him wonder why the apple fell straight down to the ground, rather than left or right or even up into the sky! Through these delightful stories children had an opportunity to see that we are surrounded by science and how great discoveries can unexpectedly be made in everyday life. Kanishq Gangrade urged all students to try a simple science experiment at home. This can be easily done by filling a glass to the brim with water, covering it with a smooth cardboard and then flipping it over. The water will stay in the glass because the force of the water pushing down will be lower than the force of atmospheric pressure, which will be pushing up on the card. Due to this, the water will stay in the glass. The singing of the national anthem marked the culmination of the assemblies on both days.

The simple message conveyed through these morning assembly was that being “scientific” means being curious, observing and asking questions. Science is one of humanity's greatest achievements. It is a friend which helps us to understand the world and find solutions to problems.

Ms Suchandra Sarkar
English Department

Assembly Presentation by Grade X Topic: International Day for Peace

"In the midst of chaos, there is also an opportunity." - Sun Tzu

Each year the International Day of Peace (IDP) is observed around the world on 21 September. This day celebrates the power of global solidarity for building a peaceful and sustainable world.

This has never been so important at a time of unprecedented challenges. New forces of division have emerged, spreading hatred and intolerance. Terrorism is fuelling violence, while violent extremism seeks to poison the minds of the vulnerable and young. In the poorest and least-developed parts of the world, climate-related natural disasters are compounding existing

fragility, increasing forced migration and heightening the risk of violence.

The barriers to peace are complex and steep - no one country can solve them alone. Doing so requires new forms of solidarity and joint action, starting as early as possible.

In a heartwarming and enlightening school assembly, students and teachers came together to commemorate International Peace Day on 21.09.2023. Skillfully anchored by Shreyasi, the assembly began with a pleasant note. Abhinav C took the pledge with students joining in and affirming their commitment to promote harmony in their school, community, and the world. Harshvardhan delivered the word of the day emphasizing the importance of peace. Poshika presented 'thought of the day encouraging reflection on the significance of peace. Likith delivered an informative article on the history and importance of International Peace Day and stressed on global cooperation for lasting peace. Arunima provided a news update, highlighting recent events from around the world. The assembly finally ended with the national anthem. The assembly successfully conveyed that peace is a tangible goal achievable through education, understanding, and empathy, emphasizing that promoting peace begins within our own hearts and can have a far-reaching impact.

Master Harshvardhan
Grade X

Assembly Presentation by Grade III A, V B and IX B

Topic: World Rabies Day

"Secure your pets, secure your family"

The 28th of September was marked at JHCS KP with great fervour in celebrating World Rabies Day. The purpose of the event was to spread knowledge about the fatal illness and ways to prevent it. Together

with the teachers, students from grades V, VI, and IX conducted an educational assembly where the students voiced the value of responsible pet

ownership, vaccinations, and first aid procedures through educational articles, strong words, skits, etc. The impact of rabies on the world and success stories in its eradication were highlighted

in an engrossing "Nukad Natak" presentation on the subject. The children from grades I-V participated in a variety of campaigning

activities, including a quiz and a poster-making contest, which promoted individual creativity and information sharing. The experience created a lasting impression and inspired students to take responsibility for public health and animal welfare.

Ms Sirisha
English Department (HOD)

Assembly Presentation by Grade IX

Topic: Mental Health Awareness

“There is hope, even when your brain tells you there isn’t.”

– John Green

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make healthy choices.

In a powerful and enlightening assembly, the students of Grade IX-A at Jain Heritage A Cambridge School, Kondapur took the stage on 29th Sept, 23 to address an issue that often goes unnoticed but deeply affects our lives - Mental Health. With a lineup of confident and passionate speakers, along with an engaging skit, this assembly left a lasting impact on the minds of both students and teachers. The assembly, skillfully anchored by Tarun, kicked off with a sense of unity and purpose. Tarun's charisma and

enthusiasm set the tone for what was to be an inspiring and informative session. Harshith, displaying remarkable leadership, led the audience in taking a pledge to prioritize mental well-being. This pledge served as a commitment to supporting one another and seeking help when needed. Abhijay, with a sincere demeanor, shared a thought-provoking word that encapsulated the essence of the assembly - "Resilience." He emphasized the importance of bouncing back from life's challenges, highlighting that mental strength is key to resilience. Krithika recited a profound thought, touching on the intricate workings of the human mind. Her words resonated deeply with everyone, reminding us of the need to care for our mental health just as we do our physical health. Ananya and Gokshetra took the stage to deliver a comprehensive article on the importance of mental health awareness. Their articulate presentation shed light on the various aspects of mental health, from the stigma associated with it to the importance of seeking professional help when needed. The highlight of the assembly was a captivating skit that demonstrated the significance of maintaining an optimistic outlook in life. Sahasresh, the narrator, guided the audience through the journey of Gurudatta and Rishank, portrayed by Gurudatta and Rishank themselves. The skit beautifully illustrated how a positive attitude and resilience can help individuals overcome even the toughest challenges. In the closing moments of the assembly, the message was clear - maintaining good mental health is a collective responsibility. It was evident that everyone in attendance left with a greater understanding of the importance of mental well-being and equipped with knowledge on how to address common issues faced by the current generation. The day ended on a notable message spoken by the senior in-charge, Ms. Kavita. R Ma'am on the mental health and its importance.

Ms Ananya Nair
Grade IX A

Assembly Presentation by Grade V A Topic: World Heart Day

"Embrace a Healthy Heart: World Heart Day celebrated on September 29th"

Take care of your heart; it's the only one you've got." - Anonymous

The Students of Grade V-A at Jain Heritage a Cambridge School, Kondapur, presented a Special Assembly on the occasion of "World heart Day" . Sanvi, the anchor, initiated the assembly by stating the significance of the day. The assembly started with prayer followed by the school song. The pledge to become responsible citizens of India was administered with conviction by Charvi. An enriching thought was shared by Parnika . Sharvani helped in enhancing the vocabulary of the students by sharing the meaning of the word "cardiovascular" . Alabhya shared an article

on World Heart Day. It is observed annually on September 29th, a day dedicated to raising awareness about cardiovascular health and the importance of nurturing our hearts. World Heart Day is not just another date on the calendar; it's a global campaign aimed at spreading vital knowledge about heart health. The singing of the national anthem marked the end of the assembly.

Through this assembly presentation students got to know that World Heart Day serves as a reminder to all to prioritize our health . By raising awareness and making informed choices, we can take control of our cardiovascular well-being. Let us embrace a healthy lifestyle today and every day, for it is the key to a healthy heart and a longer, happier life. Students took an oath to make a difference, not just in their own lives but in the lives of countless others around the world.

A Remarkable Success!!!

Students of JHCS KP Achieved Top Ranks and Scores in NEET Exam!!

In a remarkable display of dedication and academic excellence, our students of JHCS KP, Ms. Tamanna Varma(2019-20) and Ms Nagasri Smriti Yanamadala (2020-21) have achieved good ranks and secured impressive scores in the National Eligibility cum Entrance Test (NEET) examination. Their accomplishments serve

as an inspiration to countless aspirants who aim to follow in their footsteps. These successful students have not only made their families proud but also brought honor to our school. We congratulate them on their achievements and wish them success in their future endeavors. Their accomplishments remind us that with determination, hard work, and the right support, one can overcome even the most formidable academic challenges.

Experiential Learning

"Learning life skills empowers young minds to flourish and thrive."

Grade II students at JHCS Kondapur embarked on a home studio tour aimed at helping them achieve mastery of crucial practical life skills. These skills encompass table manners, shoelace knotting, buttoning, and bed sheet folding. The young learners have shown a keen aptitude in picking up table manners. They've not only acquired the basics but also internalized the values of respect and social confidence. Respectful dining, engaging in confident conversations, practicing patience, and displaying courtesy have all become part of their daily routine.

They've gained independence at mealtimes, ensuring a positive dining atmosphere for all. Shoelace knotting, once a challenging milestone, is now a symbol of their growing independence. Their fine motor skills and patience have significantly improved through this. They take pride in mastering the art of tying their shoelaces independently. Buttoning clothes, a seemingly small achievement, has had a profound impact on their self-reliance and problem-solving abilities. They confidently handle buttons, fostering critical thinking and hand-eye coordination. Folding bed sheets neatly has taught them the importance of organization and tidiness. It has instilled a sense of responsibility as they independently contribute to a well-kept living space, and they take immense pride in their accomplishment. Through experiential learning, Grade 2 students have not only acquired practical skills but also developed crucial life skills that will serve them well in the years to come. These skills are a testament to their growth, independence, and confidence.

Parent's Testimony

I'm glad to share my experiences with JGI, Kondapur, and Hyderabad wrt my wards Dev Rishi and Aara Krishna of class 7A and 3B respectively.

1. **WARMTH** - Through online education, my kids started at JGI in April of this year. Due to the teachers at JGI's child-friendly approach, my younger child, who had previously struggled with online education, quickly adjusted.

2. **WELCOME** - JGI made the first day of classes following the covid period the most memorable day of their lives by celebrating the

physical reopening. As a result, kids became excited and looked forward to going to school each day.

3. **STUDENT- TEACHER RATIO** - Excellent ratio that allows for particular one-on-one attention. owing to the individualised attention, my younger daughter, who missed physical classes in UKG and Class 1 owing to online sessions, quickly improved her writing and reading abilities.

4. **APPROACHABLE TEACHERS** - The teacher-student connection at JGI is one of respect and love, which enables the child to grow at his own pace without experiencing any anxiety.

I must emphasise that my son is always addressed with encouraging words, which has significantly increased his self-confidence.

5. **PARTICIPATION IN CCA** - Giving every student a lot of fair opportunities to participate encourages them to develop their abilities and show them off. The annual day event included a fantastic programme.

6. **WELL PLANNED EVENTS / ACADEMIC CYCLE** - The syllabus is finished well in advance, and students have plenty of opportunity for review. Consequently, they are not under exam pressure. The same level of readiness was also demonstrated in extracurricular activities.

7. **NO FUSS FIELD TRIPS** - At least two excursions were taken with my son. Without putting any strain on the parents, JGI took the utmost care and responsibility. For my son, visiting the governor's mansion and Pochampalli village will always be a special memory. To my amazement, a timely regular school lunch was offered at the venue.

8. **HAPPY KIDS, HAPPY PARENTS** - Most importantly, both of my children look forward to the following school day as they enjoy their school lunch, celebrate holidays, anticipate field excursions and compete for honours like student of the week. so forth.

Mrs Rajalakshmi

Mother of Aara Krishna-IIIB and Dev Rishi-VIIB

View the Review!

"Harry Potter and the Prisoner of Azkaban" is a captivating novel penned by the talented J.K. Rowling. The narrative predominantly revolves around two central characters: Harry Potter and Sirius Black.

For most children, summer vacation is the thing they look forward to all year. But not for Harry, who is forced to live with his terrible aunt, uncle, and cousin. Luckily he is a wizard.

Unfortunately in his third year he blew up his aunt by making her into a big balloon. J.K Rowling starts the story as if Sirius is a prisoner then turns him into Harry's godfather. Soon readers will understand that there was a misunderstanding and another person named Peter Pettigrew was supposed to be the criminal. That is why Harry helped Sirius to escape. J.K.Rowling twisted this book into too many interesting parts that there might be a confusion, but at last we will be able to understand that Sirius is on Harry's side and is a good person.

This book is imaginative, funny, frightening and, of course, magical!

Awards & Accolades

Principal Dr Mona Mehdi awarded the winners of CCA activity Rakhi Making Competition with certificates for Grade I to V.

Principal Dr Mona Mehdi awarded the winners of CCA activity Ganesh Idol Making Competition during the morning assembly (Grade I to X)

We are in News..

A WARM EMBRACE

Oh, teachers dear, you're quite the bunch,
Mixing wisdom with a playful punch.
You spin your tales with skillful art,
Captivating minds and stealing hearts.

In classrooms where boredom tries to creep,
You juggle textbooks and dreams so deep.
You turn equations into works of art,
And make Shakespeare sound like a lively chart.

You've battled the chaos of paper planes,
And survived the onslaught of endless refrains.
Yet you stand strong, with patience true,
A superhero cape hidden from view.

You've weathered the storms of teenage strife,
Navigating mood swings like a sailor's life.
You decode hieroglyphics of young slang,
And dance to tunes with an awkward gang.

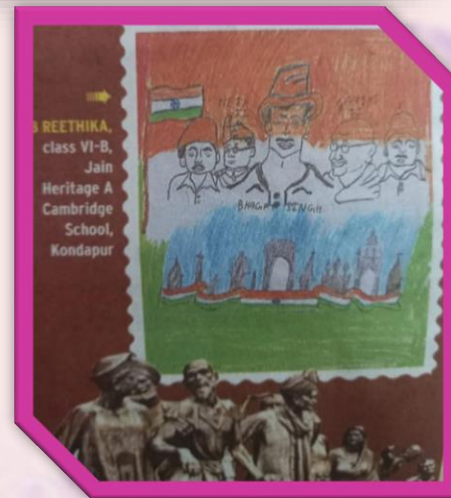

You teach us science, literature, and math,
And never falter on the knowledge path.
But it's not just about the facts and figures,
It's the life lessons that make you bigger.

You've taught us kindness, respect, and grace,
And the value of a warm embrace.
You've shown us that learning is a lifelong quest,
A journey of curiosity, not a boring test.

With eyes in the back of your heads, you see,
All the mischief and giggles,
that bring students glee,
Yet you smile with patience, your
hearts open wide,
Moulding minds, one chuckle at a
time.

So here's to the teachers,
both near and far,
The unsung heroes of
the education star.
With wit and wisdom,
you pave the way,
For a brighter, funnier,
more creative day!
