

December 2022

FROM PRINCIPAL'S DESK

Every beginning has an end, and every finish will lead to a new outset.

Another year came to a close!

2022 began with anxiety, struggle, apprehensions, and uncertainty.

What a year it was!!!

It will always remain fresh in our reminiscences.

It spoke about losing the masters like LataMangeshkar, BappiLahiri, VikramGokhale, the longest serving Monarch of Britain- Queen Elizabeth II, Cricket genius Shane Warne, never to happen again, the iconic football miracle, Pele, Robbie Coltrane - Rubeus Hagrid of Harry Potter, and many more. But it also offered the world something more. Spectacular celestial events like the First Super Moon, the Venus- Jupiter Conjunction, the Earth Shine moon, rising stars like NikhatZareen, Nagpur Metro carving a place in the Guinness Book of World records, the fastest goal of FIFA 2022 by Alphonso Davies, Lionel Messi lifted the FIFA 2022 and much more.

You may call it a Closing of the door, turning the page, and moving on. It does not matter what you name it or calls it. What matters is that you have the nostalgia; you can revisit the memories. The most beautiful part is you can make the best of the life you wish to live in the coming years.

It is always your choice and the efforts to better your selves- it matters. It makes the coming year a memorable one.

Always remember, it is not the end; it is just a new beginning in a new way. May this New Year bring new dreams, aspirations, innovations, creativity, spontaneity, laughter, friendships, travels, excitement, and much more into your lives.

Good Luck!!!!

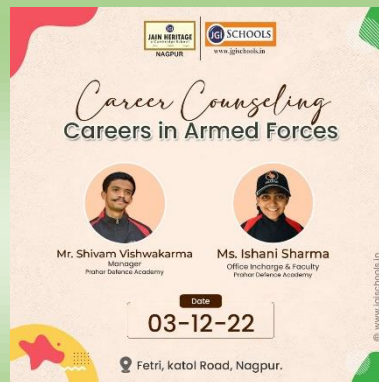

Create your story!!!!!!

God Bless You!!!

MoonikaRatanpari

Date: 03/12/2022

Speakers: Ms. Ishani Sharma, Office Incharge & Faculty, Prahar Defense Academy and Mr. Shivam Vishwakarma, Manager, Prahar Defense Academy.

Coins Exhibition

A Window to the Past: An interactive session - Coins Exhibition at JHCS

A People without the knowledge of their past history, origin and culture is like a tree without roots. It is rightly said that one must study the past if he has to define the future. A window to the past will always give you the glimpses of the wonderful things hidden in behind the curtains of time.

Dr. Ghulam Syedain Khwaja, Retd, Director Archaeology in his unique interactive style and power point presentation brought the journey of coins and phase wise development of coins from Ancient to Medieval to modern India. The various terminologies, weights and minting technologies were also explained in a very lucid manner. Mr Sohun Ramteke and Mr Khwaja arranged a breath-taking display of ancient coins which kept the students awestruck.

Principal Ms Moonika Ratanparj expressed her gratitude and urged the students to definitely walk down lane of the glorious legacy and nurture the magnificent past. The programme was conducted by Ms Archana Tiwari, Coordinator and HOD SST department with the support of Mr Amol Kamat, Mr Kartik Badole and other members of the staff, says a report.

Mathematics Model Making Competition

"Mathematics is a Life skill".

It's all about "Do over Watch", thinking "Why behind what".

To enhance mathematical skills, and trigger their mathematical thoughts. Mathematics Model Making Competition is organised in JHCS Nagpur on 17/12/22.

Students from Grade 1 to 10 had put forth projects based on Angles, Pythagoras theorem, Integers, Fractions, Trigonometry, Symmetry, Circle, its sub divisions and many more.

Students' creativity and the idea of putting conceptual knowledge in practical applications is highly appreciated by Principal Ms. Moonika Ratanparj.

Henceforth the competition helped students in extending their concepts and relate it with real life applications.

The Annual Day Celebration - "The Dream of Jijau: Veer Shivaji"

"They came, they danced, they conquered"

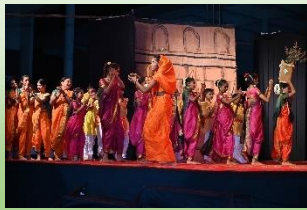

The 12th Annual Day, a razzmatazz, the cultural extravaganza organized by Jain Heritage - A Cambridge School Nagpur, showcased the classy performers of the school in an electrifying atmosphere. The students set the stage a fire with their spectacular performances. An ocular fiesta just began.

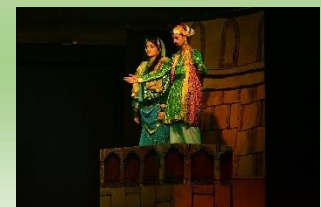

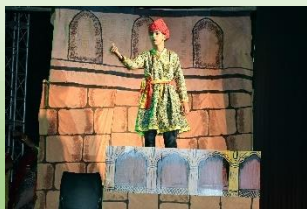

Dr. Ghulamussyadeinkhwaja, Former Director of the Archeology Survey of India, and Dr. Mona Mehdi, Secretary of the Academic Council, graced the occasion. Ms. MoonikaRatanparj, Principal JHCS Nagpur, greeted the dignitaries and the audience. She also presented the Annual Report of the School amidst applause. The students were felicitated for their feats, and the teachers were recognized for their services.

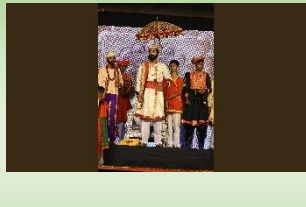

The high spot was a Broadway-style musical dance drama, "The Dream of Jijau- Veer Shivaji." The scintillating and mesmerizing performance given by the classy performers practically brought tears to many eyes, and evoked a feeling of national pride in each heart, making them proud to be Indian. The audience raved about the performances, and the perfect timing and coordination of the students were note-worthy. The spectators congratulated the Principal, Teachers, Director, and Choreographer for their hard work and minutest details to be exhibited.

Star Child Award of the 1st fortnight (01-12-2022 to 15-12-2022)

Star Child Award of the 2nd fortnight (16-12-2022 to 31-12-2022)

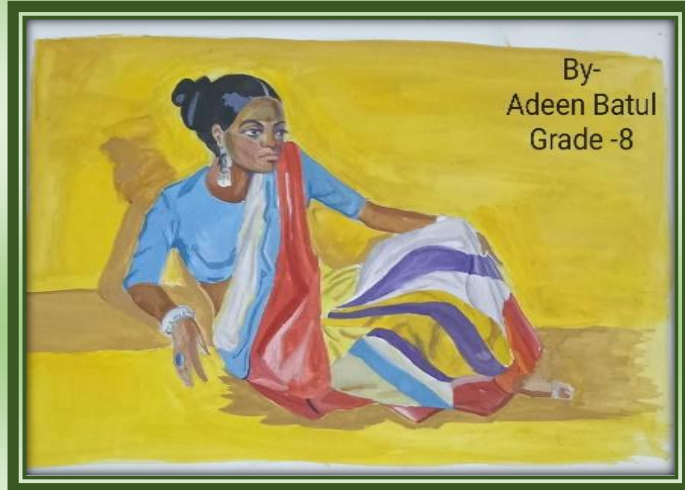

Happy Birthday

Article

MATHEMATICS IS A FUN REMEMBERING BASIC

"Mathematics is a Life skill"

It's all about "Do over Watch", thinking "Why behind what".

Mathematics is the science that deals with the logic of shape, quantity and arrangement. Math is all around us, in everything we do. It is the building block for everything in our daily lives, including mobile devices, computers, software, architecture (ancient and modern), art, money, engineering and even sports.

To enhance mathematical skills, and trigger their mathematical thoughts. Mathematics Model Making Competition is organised in JHCS Nagpur on account of International Mathematics Day.

Students from Grade 1 to 10 had put forth projects based on Angles, Pythagoras theorem, Integers, Fractions, Trigonometry, Symmetry, Circle, its sub divisions and many more.

Henceforth the competition helped students in extending their concepts and relate it with real life applications

"Math helps us understand the world — and we use the world to understand math. The world is interconnected. Everyday math shows these connections and possibilities".

Such competitions help students develop creativity and the ability to think, communicate, and solve problems. *It helps students develop lifelong learning abilities through basic mathematical knowledge.*
