FROM PRINCIPAL'S DESK

“There is a difference between a history reader and a history Maker”

It is said, “Change is the only thing that is constant.” How true it is! The world has been changing continuously. There has been transformation of the dreams to reality. Philosophers like Aristotle changed the thinking. Great leaders like Mahatma Gandhi changed the total human approach. Swami Vivekananda created totally new dimension of spirituality. Sadguru has beautifully woven the spiritualism and human existence with his Save Soil Campaign. Then there is M. S Dhoni, Sachin Tendulkar, Vishwanathan Anand, M. S Subbalakshmi , Ustad Zaki Hussain and many more to quote. They all have been special to the humanity. The greatest gifts and the best resources! It does not matter how much we have, but what really matters is what we do with what we have and the way we use what we have. APJ Abdul Kalam once quoted, “An ignited mind is the most powerful resource any nation has.” Sometimes some resources are underutilized or being inefficiently managed. Every child is special and has a potential hidden in him. With little effort, everything can be changed. Do not forget, you are the most powerful resource in yourself. Find out if you are using yourself efficiently. Only if you are ready to be chiselled, you become the idol worth being worshipped. Be someone's special gift for you are gifted to this world. So think, dream, and explore.....Sky is the limit.

With Best Regards

The school which changed my life

A teacher is a person who always guides us in the right manner. Teachers are the persons who can mould a child into a big scientist, doctor, artist, prime minister, etc. In my life, there isn't only one teacher to change me into a better person. Every teacher shaped my thinking process. When I took admission in the 6th standard, of this school, all the teachers were very nice, supportive and helpful. They not only taught me the lessons from the books but also the lessons of life. Before coming to this school I always scored poor marks but after studying in this school I started getting good scores. I remember that when I was not in this school, I had scored less than 70% in the first term exam of 6th Std. But when I took admission in this school after the first term, I got 90%. In this school I not only got the best education but also the strength and confidence to face problems and also the boldness to stand against the wrong. The teachers of this school are mentors for me and they are the ones with whom anyone can share problems and get their solutions as well as confidence to face the problem. I feel blessed to be in such a good school. And I will always be grateful to this school for changing my life.

National Doctors' Day

In India, National Doctors' Day was first observed on 01 July 1991 in the honor of Dr. Bidhan Chandra Roy, to pay tribute to his contributions in health domain. July 01 happens to be his death and birth anniversary that coincides on the same date.

Team JHCS Nagpur wishes you all Happy Doctors Day
